

Gentlemen:

I find it appalling that it would even be considered to control what I listen to on satellite radio. I pay for this service with my own money, (of which you have received your share of taxes) and should be free to not have my listening pleasure ?controlled? by the NAB.

It?s rather ironic to say the least that I have a station that I pay for, and I can get information at the push of a button as I move about the country, but now the NAB wants to take that away so that the broadcast giants can force their programming on me on their schedule.

PLEASE STOP THIS IMMEDEATELY

We Need our energies on more imminent dangers to our countries well being.

Sincerely,

Dane S. Burns
